Changes are identified by a vertical change bar in the outside margin.

Chapter 9 is being reissued to correct a pagination discrepancy. The electronic v file was updated to the current format in March 2000, but nothing in the chapter changed so no new hard copy was issued. The change to paragraph 9.2.5.5 issued in Release 21 brought to light the pagination differences between the old format and the current format. This release brings the entire Chapter 9 up to the current format. No information has changed in the chapter.
